

Instructions for your new Double Sided Floor Display

Base Assembly:

Start with this piece as shown

Fold up sides

Fold down the flaps

Fold ends over

Insert lock tabs

Lock tabs will hold the ends in place. Finish this on both sides

Tower Assembly:

Start with this piece as shown Pre-fold over the long edges on BOTH sides. Then fold the complete display together and insert lock tabs.

Secure Tower to Base:

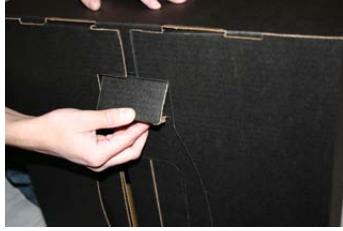

Prepare the assembled base by folding back long flaps as shown
Next, slide the tower assembly into the base

Looking from the underside of the base push/pull the tower assembly into the tab openings. Then fold over the tabs to securely lock the tower into the base.

Instructions continued

Secure Tower to Base:

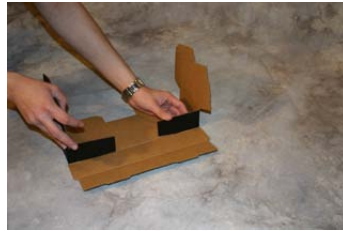

Fold down interior flaps on tower assembly so that it can be pushed all the way into the base. Then secure connection with tabs as noted before. The last step is to fold down the open top of the display as shown on the above far right photo.

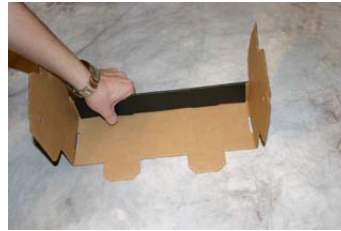

Shelf Assembly:

Start with this piece as shown above.

Fold in flaps.

Fold over front lip and secure into slots.

Fold over each side as shown in above photo.

simp

wer.

Your display comes with 8 shelves total.
